Installation

Before beginning, please turn off the computers you are connecting to the KVM

NOTE:

To prevent damge to your equipment due to static electric discharge, please make sure that all devices on the installation are properly grounded.

Refer to the illustraions below while completing the following steps

1- Connect your monitor to the VGA port on the RKV-2UC
2- Connect your USB keyboard to the keyboard port on the RKV-2UC
3- Connect your USB mouse to the mouse port on the RKV-2UC
4- Connect the KVM's VGA cable to the VGA port on one of your computers
5- Connect 2 USB connectors on the same cable to the same computer
6- Repeat step 4 and 5 on the other computer
7- Boot both computers
8- Tap the button to switch between computers
